

March 21, 2021

You may have noticed the sayings on our Palma Sola sign in recent weeks. We've begun a new slate of sign sayings that share a message of encouragement or a wise saying about life and on occasional a message guaranteed to bring a smile.

While we wish and hope that our church would be filled with people each Sunday, we know that we are restricted in attendance. We also lament that church membership and participation has ebbed over many years. Yet each week, hundreds of cars ferrying people home, to work or school; to appointments or other activities.

Our sign may be the message they need to see or hear as they travel. Our message can become a brief but powerful sermon they need to hear. Our sign might provide the encouragement they need to continue through the day.

While the most important testimony to a church's faith is how it serves within the community, it is also demonstrated by what others see on the church sign. My hope is that others will come to know God through our sign and come to know more about Christ by joining us.

If you haven't noticed our sign lately, check it out.

Blessings,

Edward
